

Visualizations

To better understand the data, the following visualizations are recommended:

Histograms

- **User Age Distribution:** To observe the predominant age groups.
- **Flight Prices & Time Distribution:** To identify common ticket price ranges and durations.
- **Flight Distance Distribution:** To analyze how far travelers typically go.
- **Hotel Price & Stay Duration:** To understand pricing patterns and trip lengths.

Box Plots

- **Flight Prices & Hotel Prices:** To detect outliers and spread of prices.
